SPECIAL THANKS TO OUR SPONSORS

R MAX® BUILDING TRUST Sika®	The next generation of air & water-resistive insulation.
FAKRO® Skylights & Attic Stairs	The roof window and loft ladder specialists.
S-5!® The Right Way	Find the Right Clamp & Bracket for Your Metal Roof Profile.
Accu1® Direct MANUFACTURED AND SOLD DIRECT TO YOU	Insulation blowing machines, fireproofing machines, & insulation removal vacuums since 1980.
G GALLINA USA	The leaders in polycarbonate sheets and Glazing system.

From Bricks to Clicks: **Meet Our Founder**

Johnpaul Manning

Build4less LLC

Johnpaul Manning's journey from a carpenter apprentice to a successful entrepreneur in the construction and e-commerce industry is both inspiring and impressive. His career reflects a blend of hands-on experience in construction and an innovative approach to business, particularly in transitioning to the online sale of construction materials and products.

Johnpaul's initial foray into the construction industry began shortly after he left secondary education in 1996 when he undertook a four-year apprenticeship in carpentry. During this apprenticeship, he gained extensive experience in a variety of construction projects, ranging from individual houses to large apartment blocks and housing developments. This foundational experience equipped him with a broad understanding of the construction process, contributing to his later successes in property development.

In 2001, Johnpaul furthered his education in Construction Technology at DIT Bolton Street, Dublin, Ireland a move that provided him with the theoretical knowledge and technical skills necessary to excel in the construction industry. It was after completing his education at the age of 21 that he began his venture into property development, starting with the acquisition and development of land in Virginia, Cavan, Ireland. His initial project involved purchasing a half-acre site, building a house, and then progressing to develop a site for four houses. This early success set the stage for more significant projects, including Bramblewood in Kingscourt, Cavan—a development of 35 units—and later, the ambitious projects of Farmleigh in Riverstown, Birr, and Kingston Heath Killeen Lane, Birr, which combined amounted to 110 houses.

Johnpaul's role as head foreman in these projects, particularly during the construction of Farmleigh where he managed over 100 men daily, highlights his leadership skills and ability to manage large-scale construction projects efficiently. The award of Best Concrete Build by Concrete Today in Ireland for Farmleigh further attests to the quality and excellence of his work.

The economic downturn in 2008 could have been a setback for many in the construction industry, but Johnpaul demonstrated foresight and adaptability by launching Build4less.ie in 2007, capitalising on the then-emerging trend of online sales. This pivot not only safeguarded his business interests during a challenging period but also positioned him as a pioneer in the online sale of construction materials.

Johnpaul's expansion into the e-commerce sector, with the launch of several websites targeting the UK and US markets, including insulation4less Ltd, Build4less.co.uk, Tiles4less.co.uk, BSO.co.uk, Insulation4us.com, and Roofing4us.com, showcases his entrepreneurial spirit and his ability to identify and seize opportunities in the digital marketplace. The challenges of breaking into the US market, particularly the logistical and distribution challenges mentioned, highlight the complexities of operating on a global scale. Yet, Johnpaul's success in overcoming these challenges and achieving substantial revenues with projected growth indicates a strategic and resilient approach to business.

Overall, Johnpaul Manning’s journey is a testament to the power of combining practical construction experience with innovative business strategies. His ability to adapt to changing market conditions and leverage the opportunities presented by the digital economy is particularly noteworthy. His story serves as an inspiration to aspiring entrepreneurs in the construction industry and beyond, demonstrating that with hard work, adaptability, and forward-thinking, it is possible to build a successful and resilient business empire.

BUILDING TRUST

Creating Energy Saving Solutions Based on Building Science

Since 1978, Rmax has been creating insulation solutions based on the latest building science. Our full line of high-quality, polyiso-based wall, roof and specialty insulation products for commercial, industrial and residential applications deliver maximum R-values and minimum environmental impact, with efficiency in installation, cost and design. Rmax insulation has been designed and tested to provide building envelopes with superior insulating protection while meeting the newest codes and requirements. Rmax's engineered products and solutions allow for ultimate efficiency through multiple design options, creating ease of construction and reduced energy usage. This leads to a better building envelope while adding to the bottom-line through both material and labor savings - making Rmax an excellent choice for commercial and residential applications.

As new developments in building science emerge, rest assured that Rmax will remain at the forefront, manufacturing tested, engineered solutions that serve Architects, builders, owners and occupants alike. Our people understand the diverse markets in which our products are used. Their integrity and responsiveness work to your advantage. Our manufacturing plants in Dallas, TX, Greer, SC and Fernley, NV, with sales offices coast-to-coast, stand ready to serve you.

RMAX
SOLUTIONS

In January of 2017, Rmax became part of the Sika Corporation, a specialty chemicals company with a leading position in the development and production of systems and products for bonding, sealing, damping, reinforcing and protection in the building sector and automotive industry. Sika has subsidiaries in 97 countries around the world and manufactures in over 170 factories. The integration of Rmax and Sika provides us with an industry-leading position in polyiso continuous insulation, waterproofing, air barriers and sealants for the entire building envelope. We are dedicated to sustainable development, assuming responsibility to provide sustainable solutions in order to improve energy efficiency within the building envelope. We strives to create value for all its stakeholders with its products, systems, solutions along the whole supply chain and throughout the lifespan of its products. The value created outweighs by far the impacts associated with production, distribution and use.

FAKRO®

Skylights & Attic Stairs

FAKRO is a private company established in Poland in 1991. The company is the most dynamic and fastest growing roof window manufacturer in the world. In the 28 years from a small family company, FAKRO has developed into an international corporation achieving the position of vice-leader in the global market of roof windows.

We aim to supply the highest quality products to satisfy the requirements of our customers all over the world. So, we place the highest priority on health and safety, security and the environmental impact of our products.

- FAKRO is a global player in the manufacture of roof windows
- Leader in many countries and number two worldwide in the roof window market
- One of the leading companies in the world with approximately 15% share of the global market
- Over 4000 employees
- 11 manufacturing companies all over the world
- 17 FAKRO distribution companies
- An extended distribution network in over 60 countries where there is a demand for roof windows
- Got modern research and development centre (over 100 constructors)
- Creator of many patented and several patent pending solutions

What Makes S-5!® *The Right Way* Different?

What makes any company the leader in their product category, standing out from all others who follow?

It is a culture and ethos within its leadership to strive for perfection. From business ethic and customer service to the quality of its products, this drive for perfection leads to excellence in every aspect of our business. When we say The Right Way™, it is not just a slogan-- it is the credo & rule of conduct for everything we do. Having served the industry from the beginning as the original inventor of an all-new, distinctive product category, we have the knowledge, research, engineering, testing, production capability, ingenuity and overall expertise to develop and stand behind our products like no other in this marketplace. We strive daily to earn your trust and be your choice for metal roofing attachment solutions by doing what we do The Right Way.

GALLINA USA

The Polycarbonate Sheets and Systems Leaders

For over half a century, GALLINA has been designing and manufacturing plastic glazing products that are recognized throughout Europe for innovation, quality, and durability. Now, for the first time, GALLINA USA is offering its full line of Polycarbonate products to architects, designers, fabricators, distributors and contractors in North America. Gallina's Policarb® product line provides complete glazing systems for your commercial and residential daylighting needs. Our products offer practical applications for walls, roofs, canopies, skylights and any application where light, superior performance and thermal protection are needed. We are proud to produce our material at our state-of-the-art facility in Janesville, Wisconsin. Gallina USA is dedicated to producing the highest quality polycarbonate on the market and providing service to the industry that is second to none.

WHY CHOOSE GALLINA USA

Gallina USA stands out because our polycarbonate solutions are lightweight, translucent, and incredibly versatile, making them ideal for countless applications. Built to endure, they are UV and hail resistant, ensuring long-lasting durability even in extreme conditions. Prioritising safety and sustainability, Gallina materials are both safe for use and environmentally friendly, contributing to a greener future.

WORKS ON DIFFERENT SURFACES

RV | FLAT ROOFS | METAL ROOFS | WOOD | GUTTERS | FIBERGLASS
PLANTER BOXES | FOUNDATIONS

EASY TO USE:

CLEAN THE SURFACE, STIR WELL, AND APPLY HEAVY COATS.

Say goodbye to roof leaks and damage with Roofing4US All Purpose Flex Repair silicone roof sealant, the ultimate solution for watertight, long-lasting protection. Our premium 100% silicone roof sealant is specially designed to work seamlessly on a variety of surfaces, including metal, wood, fiberglass, rubber

PREMIUM 100% SILICONE COATING:

Roofing4US All Purpose Flex Repair creates a durable, watertight barrier on various roof types, including metal, wood, concrete, and RVs. Our advanced silicone formula outperforms traditional sealants, providing long-lasting protection for any surface.

LIFETIME GUARANTEE FOR PEACE OF MIND:

Backed by our lifetime promise, Roofing4US All Purpose Flex Repair ensures your roof stays protected for the long haul. Our commitment guarantees your roof will stand strong, no matter the conditions, so you can repair and forget with total confidence.

NO PRIMER REQUIRED FOR EASY APPLICATION:

Skip the hassle of priming! Our silicone roof sealant bonds directly to most surfaces without the need for primer, allowing for a quick and easy application that saves time and effort while delivering professional results.

MAXIMUM COVERAGE, MINIMUM COST:

Roofing4US All Purpose Flex Repair offers superior coverage with just one coat, reducing the need for multiple applications. Protect your roof from leaks and damage, while saving both time and money in the process.

TOUGH AND WEATHER-RESISTANT:

Built to withstand extreme conditions, this silicone roof sealant holds up against harsh climates, heavy rain, and high heat. Its reflective properties help keep interiors cooler and more energy-efficient, making it perfect for both residential and RV use.

About Us: Roofing4US:

Roofing4US is your trusted partner for premium roofing materials and solutions. Whether you're a homeowner, contractor, or builder, we provide a comprehensive range of high-quality products, including shingles, metal roofing, underlayment, and accessories, to suit projects of all sizes and styles.

Our mission is to make roofing simple and accessible with an easy-to-navigate online platform, competitive prices, and expert customer support. With years of experience in the industry, we are dedicated to helping you protect and enhance your property with durable, reliable, and stylish roofing solutions.

At Roofing4US, we don’t just provide materials—we deliver peace of mind. Build better and stronger with us!

About Us: Insulation4US:

At Insulation4US, we are committed to providing high-quality insulation solutions to meet the needs of homeowners, contractors, and builders across the United States. With an extensive range of top-notch products, including fiberglass, spray foam, and rigid board insulation, we make it easy for you to create energy-efficient, comfortable, and sustainable spaces.

Our mission is to simplify the insulation buying process with a user-friendly online platform, competitive pricing, and exceptional customer service. Backed by years of industry expertise, we pride ourselves on being a trusted partner for projects of any size, from DIY home improvements to large-scale commercial constructions.

Choose Insulation4US for reliable products, expert advice, and a seamless shopping experience. Let’s work together to insulate your future!
